The Association of American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employes.

Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of the business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and, by such other means as may, from time to time, be shown to be wise, proper and lawful.

\$100.00 Reward Will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any fraudulent or fake directory.

INTRODUCTORY

1904

1358778

The fiftieth volume of the INDIANAPOLIS CITY DIRECTORY is herewith presented to its patrons and the public.

The Directory for 1904 contains 83,526 names, an increase over 1903 of 3,026 names, which, multiplied by $2\frac{1}{2}$, shows an increase in population of 7,565; and on the same basis we estimate the total population embraced in the territory covered by the Directory at 208,815.

By comparisons with the population statistics of the last United States census and the several Directory estimates, it has been shown that the old multiple of $2\frac{3}{4}$ to each name contained in the Directory, which has been used for some years, has been too high, and by figuring on a basis of $2\frac{1}{2}$ a result as nearly correct as possible is obtained. The improved methods employed in the last United States census have produced substantially accurate results, and they are so applied that the percentage of error will be distributed pretty equally throughout the country, and thus for comparative purposes the results may be absolutely relied upon.

Evidences of our prosperous and healthy growth and continued commercial activity, besides our increasing population, are our bank clearings for the past year of \$312,126,271.76, showing an increase of nearly \$48,000,000.00 over the previous year. Postoffice receipts for the year 1903 were \$675,086.19, showing an increase over 1902 of about \$75,000.00. Real estate transfers recorded during the year show an increase of \$1,000,000.00, the total amounting to \$14,963,752.63, and according to the building permits issued there was over \$3,000,000.00 invested in this manner during the year.

We desire to thank our many patrons for their continued support, and the public generally for the courteous treatment extended our canvassers.

Indianapolis City Directory

1904

STREETS AND AVENUES.

THE Street Directory is an alphabetical arrangement of the names of the Streets and Avenues of the city. By the decimal system of numbering houses recently adopted in this city, one hundred numbers are allotted to each square. On streets running north and south the numbering begins at Washington street. The streets running east and west are numbered East and West from Meridian street. All other streets not commencing at either of the above points are numbered in accordance with this system. The names and numbers of intersecting streets and avenues are given in the order in which they occur, which enables one to tell between what streets a certain number is. For instance, you have 520 Harlan street; by reference to the Street Directory, you find 800 at Lexington av. and 900 at Pleasant street; consequently, the place you wish to find is between Lexington av. and Pleasant street.

The marginal letters of the alphabet refer to the nearest street car line. For example, you wish to go to 520 E. Sixteenth: you refer to Sixteenth street in the Street Directory and find that 520 would be between Central av. and Park av. and the letter "B" in the margin, then by referring to the street railway lines you find the letter "B" is the Central av. line, which is the nearest car.

The Association of American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employees.

Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of the business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

\$100.00 Reward Will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any fraudulent or fake directory.

Electric Light and Power Plants

FOR LIGHTING—Fairbanks-Morse Engines, either belted or direct-connected to Fairbanks-Morse Dynamos, generate a current that is commercially steady, and when used for lighting shows no variation or flicker. Our plants are unrivaled for illuminating towns, business blocks, hotels, clubs, private residences, summer homes and factories.

FOR FACTORIES—Factory managers now realize that electricity is the cheapest and best drive, and for generating the electricity the utility of gas, crude oil or gasoline engines is recognized.
